

INTERNATIONAL SEARCH REPORT

International application No.
PCT/AU00/01019

A.	CLASSIFICATION OF SUBJECT MATTER							
Int. C1. 72	A61N 1/372, 1/36							
According to International Patent Classification (IPC) or to both national classification and IPC								
В.	FIELDS SEARCHED							
Minimum documentation searched (classification system followed by classification symbols) IPC: AS ABOVE								
Documentation	Documentation searched other than minimum documentation to the extent that such documents are included in the fields searched							
Electronic data base consulted during the international search (name of data base and, where practicable, search terms used) WPAT, MEDLINE, IEEE, Internet (implant, electrodes, selection)								
C.	DOCUMENTS CONSIDERED TO BE RELEVANT							
Category*	Citation of document, with indication, where app	ropriate, of the relevant passages	Relevant to claim No.					
x	"Summary of Results Using the Nucleus CI2 Electrically Evoked Compound Action Poten Ear and Hearing February 1999, Volume 20 American Auditory Society, Whole docume	1-7						
Y	WO 97/48447 (Advanced Bionics Corp.) 24 Whole document, esp. Claims 13,18	1,5						
Y	WO 97/09863 (Cochlear Limited) 13 March Whole document	1,5						
X Further documents are listed in the continuation of Box C X See patent family annex								
* Special categories of cited documents: "A" document defining the general state of the art which is not considered to be of particular relevance "E" earlier application or patent but published on or after the international filing date "L" document which may throw doubts on priority claim(s) or which is cited to establish the publication date of another citation or other special reason (as specified) "O" document referring to an oral disclosure, use, exhibition or other means "P" document published after the international filing date or priority date and not in conflict with the application but cited to understand the principle or theory underlying the invention document of particular relevance; the claimed invention cannot be considered novel or cannot be considered to involve an inventive step when the document is taken alone document of particular relevance; the claimed invention cannot be considered to involve an inventive step when the document is combined with one or more other such documents, such combination being obvious to a person skilled in the art document member of the same patent family								
Date of the actual completion of the international search Date of mailing of the international search Date of mailing of the international search								
15 September 2000 Name and mailing address of the ISA/AU Authorized officer								
AUSTRALIAN PATENT OFFICE PO BOX 200, WODEN ACT 2606, AUSTRALIA E-mail address: pcc@ipaustralia.gov.au Facsimile No. (02) 6285 3929 DALE E. SIVER Telephone No: (02) 6283 2196
